

HABLA ONLINE

If you want to improve your Spanish look no further than Habla's new online program, *Travesías*. *Travesías* is a user-friendly, virtual platform to help enhance Spanish language learning.

At Habla we believe meaningful connections are vital to language development. Habla's online program incorporates the elements that make our live classes different than most language classes. Culture, arts, stories, and grammar are all essential elements of Habla's *Travesías*. Most online programs focus only on informal conversation. In addition to meaningful conversations, Habla's online programs provide a clear structure helping students advance to a new Spanish level.

OUR STAGES

Student levels in *Travesías* are represented by stages. Each stage has its own thematic sessions and grammar modules, which will help students boost their language acquisition through storytelling and cultural exploration. Our stages are as follows:

NOVICE STAGE

The *Novice Stage* is designed for language learners with little or no previous knowledge of Spanish. Here, students will become comfortable with the language and develop the vocabulary and sentence structure necessary to talk about their life and community. Students will learn the following grammar tenses: present, present progressive, and future with *ir*.

NOVICE HIGH STAGE

The *Novice High Stage* is designed for students with previous knowledge of present tense and basic Spanish expressions. In this level, students will broaden their understanding of the Spanish-speaking world and improve their language skills by talking about social topics and stories in the past. Students will learn the following grammar structures: past (preterite and imperfect), and perfect tenses.

INTERMEDIATE STAGE

The *Intermediate Stage* is built for students with previous knowledge of the Spanish present and past tenses. At this stage students will engage in deeper conversations about contemporary topics in Mexico and Latin America. By the end of the course, students will be able to interact confidently with native speakers in social and academic contexts. Students will learn the following grammar tenses: future, conditional, and imperative.

INTERMEDIATE HIGH STAGE

The *Intermediate High Stage* is for students who have taken intermediate Spanish courses before and are ready to progress towards fluency. In this course, language learners will further develop their Spanish skills by reading about historical and current events, and by exploring literature, the arts and cultural expressions of Mexico and Latin America. By the end of this course, students will be able to use language effectively in social, academic, and professional settings. Students will work on the subjunctive.

ADVANCED STAGE

The last stage of *Travesías* is designed for students with a high level of Spanish proficiency who are moving towards a native-speaker's level of fluency. The emphasis is on expanding vocabulary and working through more complex structures in order to read texts in multiple genres, engage in academic class discussions, and write essays in response to texts.
